When you set up Vigilance State Parameters or Average FFT, you are supposed to set up **Division**. It may appear in AM/PM format as in the above picture under some windows configuration. You can change the configuration to make it suitable format by following steps below;

1. Go to "Start Menu"-"Control Panel", and open "Regional and Language Options"

egional Uptions	Languages Advanced			
Standards and	I formats			
This option al dates, and tin	fects how some programs format numbers, currencies, ne.			
Select an iter your own forn	n to match its preferences, or click Customize to choose nats:
