How to change the amplitude unit when reading DSI data

(1) After opening DSI data, following dialogue will be displayed. Select channels to change the unit, select **uV** from **Display unit** list, and click **Apply.**

/aveforn	n data		v	Parameter data		
Ch. ID	Data type	Full scale	Displayed,	C	Data type	Displayed unit
√1 √2	EMG EEG	1 mV 1 mV	V V	P1 P2	Activity Temperature 2	Counts/min Celsius
Select fu	Ill scale and u	unit name			1	
Select fu	ull scale and u scale; 1 mV	unit name	*	Displ	lay unit of Parame ged.	eter data can not b

(2) The unit will be changed. Then click **OK**. The waveforms will be displayed in micro volt order.

Waveform data					Parameter data		
Ch. ID	Data type	Full scale	Displayed	C	Data type	Displayed unit	
√1 √2	EMG EEG	1 mV 1 mV	uV uV	P1 P2	Activity Temperature 2	Counts/min Celsius	
Select full scale and unit name					Display unit of Parameter data can not be changed.
