

# Sleep Analysis Software

## Sleep Sign Ver3.0

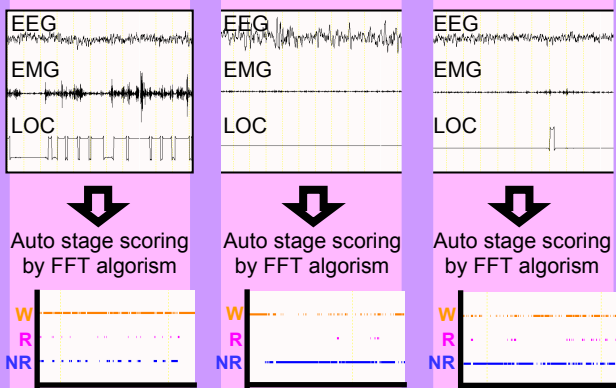

**New feature!**  
**New Interface!**

 KISSEI COMTEC

We are pleased to announce that the brand new Ver3.0 of SleepSign for Animal drastically reduces the time and labor you spend on stage scoring with its Auto-Scoring function.

### Multi animal staging

can be simply performed just with one step presetting.

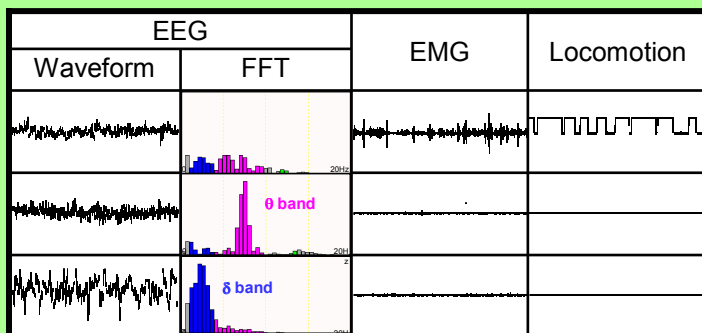

**Auto Screening**

*Just 5 min for 24 hours recorded data*

**New Procedure Function** reduces your consuming time and labor cost drastically for presetting of multi sleep stage parameters.

**Quick and Easy Auto Scoring** using FFT parameter of EEG, EMG integral value, and count number of locomotion

FFT algorithm's agreement (vs. visuals) is **90%**.

*For the Internet Live Demo Request*
